

COLOCATION SERVICE ADDENDUM

SERVICES AND PRICING STRUCTURE

Both parties have agreed upon the following services and pricing structure.

SPACE

Colocation space is priced based on rack units used.
Cost per (1) rack unit is \$49 monthly and \$25 setup
Cost per (10) rack units is \$475 monthly and \$250 setup
Cost per (20) rack units is \$925 monthly and \$500 setup
Cost per (40) rack units is \$1800 monthly and \$1000 setup

BANDWIDTH

Bandwidth pricing as follows:

- \$49/monthly per 64Kbps connection as determined in the 95 percentile, which is roughly equivalent to 20Gigs of total data transfer.
- \$349/monthly per 512Kbps connection as determined in the 95 percentile, which is roughly equivalent to 160Gigs of total data transfer.
- \$689/monthly per 1Mbps connection as determined in the 95 percentile, which is roughly equivalent to 320Gigs of total data transfer.

A one time \$75 setup fee is charged when account is initially setup. Customer must provide written notice (email is acceptable) to move up to the next pricing level, upon which all subsequent monthly invoices will be billed at this new level.

JASKE.COM, Inc. shall provide statistical reports and/or graphs showing proof of bandwidth utilization. These reports may or may not reflect the usage in the 95% percentile, which will be less than the peak usage shown in standard reports.

POWER

A/C power is provided through management server, which is connected to two separate power circuits for redundancy (can operate on one circuit).

Remote reboot service (remote soft and hard power cycling) can be provided for \$25 setup and \$35 monthly. Special restrictions and/or costs apply to Microsoft based operating systems (e.g. Win NT, 2000, XP, etc.)

For additional redundancy or higher power requirements or other special needs, an addendum must be provided with a specific breakdown of requirements.

IP SPACE

1 IP address is included with service. Initial IP assignments over 30 (32) require justification as per ARIN's requirements.

Cost for blocks are as follows:

30 IP's	/27	\$10 monthly
62 IP's	/26	\$18 monthly
126 IP's	/25	\$30 monthly

REMOTE HANDS

Remote hands service is defined as any service provided to customers equipment from a physical reboot to system or network engineering, disaster recovery, etc.

Remote hands service is provided on an hourly basis at a cost of \$150 per hour billed in half-hour increments after the first hour (one hour minimum charge).

For customers requiring regular maintenance of servers, special rates are available.
